Professional Summary

Dedicated professional transitioning into full-stack development, DevOps and AI automation. Experienced in building AI-powered tools and optimizing workflows through Generative AI, with a strong foundation in PHP, Laravel, and React. Eager to apply a strong foundation in problem-solving and technical skills in a new and challenging role. A quick and enthusiastic learner with a passion for building and optimizing systems.

Availability

Open to full-time, part-time, remote, or on-site opportunities in a software development company, and also available for internships to further my skills.

Work Experience

Dental Technician/Assistant APR 2006 - JAN 2025
P.Z.U Milin Balkan

- Utilized a strong focus on precision and attention to detail to ensure high-quality work.
- Developed excellent communication skills through collaborating with colleagues and clients.
- Managed and organized a fast-paced work environment, demonstrating strong time management and problem-solving abilities.

Technical Support FEB 2002 - MAY 2002

OKI-technical support, Duna Computers

- Provided direct technical assistance and troubleshooting for software and hardware issues.
- Documented and escalated complex technical issues to senior team members for resolution.
- Cultivated strong interpersonal skills by effectively communicating with customers to understand and solve their problems.

Call Center Technical Support (Honorary) SEP 2017 - MAR 2020

Ekstended DOOEL

- Resolved complex technical issues for customers, demonstrating strong problem-solving and analytical skills.
- Analyzed customer feedback and call data to identify recurring problems and improve support processes.
- Used a proactive approach to troubleshoot and resolve a wide range of software and hardware issues.

Additional Work Experience

Member, Touring Member (Guitar) 1996 - 2013

Band Smut

Producer 1996 - 2025

Band Smut

Education and Training

Student, Full Stack Programming MAR 2025 - To date

Brainster Academy

DevOps Engineer Intensive Program OCT 2023 - FEB 2025

Udemy

AI Courses Program SEPT 2025 - OCT 2025

Brainster - AlatWork

Degree of Dental Ceramics 2001 - 2003

UKIM - Faculty of Stomatology

Medical School 1996 - 2000

High School DSMU Panche Karagjovov

Skills

Cloud Platforms: AWS

Containerization: Docker, Kubernetes

AI & Generative AI:
LLM Integration (Gemini API),
Prompt Engineering, AI Agents, AI-Driven Automation, RAG (Retrieval-Augmented Generation) concepts

Configuration Management: Terraform

Frontend: HTML, CSS, Sass, Bootstrap, JavaScript, React

Backend: MySQL, PHP, Laravel, Firebase

Version Control: Git, GitHub, BitBucket

Scripting & Automation: Bash, PowerShell, Python (AI Workflows)

Soft Skills

Problem-Solving, Adaptability, Teamwork, Time Management, Attention to Detail

Personal AI Projects

"AI MTP Translation Application"

A specialized translation tool leveraging AI to maintain document context and professional terminology.
